DSP6114 / DSP6116

20W / 40W Outdoor Waterproof Column Speaker

Description

DSP6114/DSP6116 outdoor column speaker is a high-performance audio solution designed for outdoor environments, featuring rated power of 20W/40W, high sensitivity, wide frequency range, and a durable, weather-resistant construction. These speakers deliver clear, powerful sound with strong bass and are perfect for long-lasting outdoor installations, ensuring reliable performance in various weather conditions.

Features

- Adopt the speaker unit with high sensitivity, high dynamic range, two-way frequency design, strong bass, clear and delicate treble, and good voice playback effect.
- Built-in E-type high-bandwidth transformer, pure copper wire turns, 50Hz-20KHz frequency range to ensure low frequency rendering.
- Adopt waterproof design, aluminum shell, plastic cover and aluminum mesh, and UV anti-ultraviolet paint treatment for the surface, which can be used outdoors for a long time.
- Adopt thickened aluminum material for the speaker case and integrated sealing design, effectively preventing air leakage and resonance sound.
- With drain holes in the bottom cover, effectively eliminating the impounded water.
